

## VENDED LAUNDRY

Commercial  
Washers and Dryers

**Speed Queen.**

# DEDICATED TO A HIGHER STANDARD.

100 years. It's a long time for any company to be at the forefront of an industry. And you'd think that a company that's been able to lead for that long must have a finely honed craft — a premier product. Well, you'd be right. For more than a century, Speed Queen has built a legacy on providing equipment that stands up to any commercial laundry challenge. We make no compromises in performance. We refuse to be outdone in reliability and efficiency. Our commitment to quality is only matched by our commitment to your success. The result? The most profitable machines in the industry — bar none.

Some of our competitors may think that a residential machine wrapped in a rugged exterior passes for commercial grade. We believe that strength comes from within. Speed Queen machines are built specifically for the commercial environment. We use metal where others use plastic. Our world-class Test Lab rigorously pushes our products far beyond the conditions they'll face in the field. We believe in being there when our customers need us most. And we go the extra mile at every point of our manufacturing process to ensure that our machines reflect that belief.

## CONTROL OPTIONS

### QUANTUM® GOLD

Revolutionary Quantum® Gold technology combines equipment controls, programming and wireless networking into one full-store management system, including: wireless networking, adjustable water levels, “lucky cycle” feature, time of day pricing, customizable cycle modifiers, and in-depth reporting. Designed to reduce costs and maximize revenue, Quantum gives you the power to achieve unprecedented levels of profitability.

### MICRO-DISPLAY CONTROL (MDC)

Our Micro-Display control clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections, basic audit features and is available with a single coin drop installed.

### E-MECH

The E-Mech control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer's equipment.

# BUILT FOR RELIABLE PERFORMANCE.

## FRONT LOAD WASHER

Revolutionary balancing technology redistributes even the most unbalanced loads for consistent cycle times, minimized vibration and reduced noise

Increase spin speed extracts 440 G-Force to maximize moisture removal, helping to minimize dry times.

20% increase in capacity with improved water usage for superior washability, increased customer satisfaction and lower utility bills.

Heavy-duty design features like a rugged suspension system and stainless steel washtub and outer drain tub to deliver long-lasting performance.

Redesigned 4-compartment soap dispenser for simplified use and cleaning with for time for flushing

## TOP LOAD WASHER

Durable stainless steel tub becomes smoother with each use, so it won't pill, snag or fray clothes

710 RPM final spin speed extracts more water from loads reducing the energy costs associated with long drying times.

Advanced suspension system eliminates the possibility of an unbalanced load issue

Secure high-capacity coin vaults feature a double-wrapped steel front and are secured to the washer top with heavy duty bolts

## SINGLE AND STACK DRYER

Extra-large capacity with the largest door opening in the industry for easy loading and unloading

Durable galvanized steel cylinder

Upfront lint filter for easy cleaning

Stack unit offers two dryers in floor space of one
