

## On-Premises **Firemen's PPE Drying Cabinet**

Huebsch Firemen's PPE Drying Cabinets are engineered to comply with all NFPA 1851 regulations. Efficient drying processes help minimize utility and operating costs and cut drying times down to one-and-a-half to three hours — meaning gear will be ready for action whenever the alarm sounds.

### Extra-Large Capacity

The spacious unit allows drying of six full sets of PPE gear (fire jacket, pants, and liners) and up to 15 boots or gloves at once. Optional racks are available for drying additional items such as hoses.

### Quality

Durable construction delivers long-lasting, premium drying performance that stands up to the rough demands of your profession.

### Efficient

An advanced airflow process sends heated air around and inside turnout gear for thorough, efficient drying.

### Microprocessor Control

Huebsch's versatile Microprocessor Control enables you to store temperature and speed settings to ensure consistent, top-quality results.
