Speed Queen

OUR STRENGTH COMES FROM WITHIN

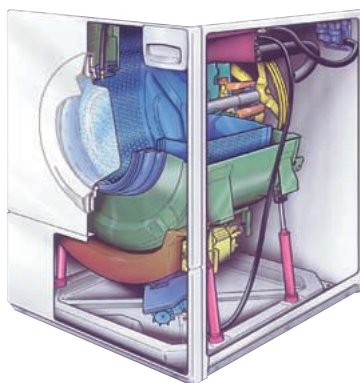

COMMERCIAL HOMESTYLE FRONTLOAD WASHER SPECIFICATIONS

COMMERCIAL QUALITY

Built tough to stay that way. For over 30 years, Speed Queen has served the coin-operated laundry industry and continues to lead in customer satisfaction. Speed Queen home-style washers feature many of the same rugged, reliable parts found in the coin-operated machines, so they're built to last.

HORIZONTAL AXIS WASHER DESIGN

Commercial Quality Features

- Long-lasting cast aluminum trunion and bearing housing
- Heavy-duty 3/4 HP drive motor with reversing wash action
- 18 lb. capacity stainless steel inner and outer tubs
- See-through door to view washing

Multi-Cycle and Temperature Controls

Speed Queen offers you a choice of washing cycles with four wash/rinse temperature options.

Front Mount Supply Dispenser

Automatically adds detergent, liquid bleach and liquid softener.

Attractive Control Panel

Commercial homestyle frontload washers have attractive styling to match electric or gas dryers.

<small>Motor: 3/4 HP reversing, permanently lubricated with a built-in automatic thermal overload protector. Electrical Requirements: Grounded 3-wire, 120V, 60 Hz AC, 15 amp circuit separately fused. Heights may vary slightly depending on leveling adjustments. Speed Queen's continuing commitment to quality products may mean a change in specifications without notice.</small>	

Energy Efficient

Our front-loading washer lowers total water consumption versus a conventional top load washer (8 lb. load/19.6 gals to 18 lb. load/23 gals). It also uses less hot water, averaging 2.2 gals/8 lb. load to 2.6 gals/18 lb. load.

High Speed Extract

Speed Queen's front loading washer features a 1000 rpm spin speed for maximum water removal from clothes and faster drying.
